

Maid Hiring Platform — Pitch Document

1. Problem Statement

- 1 Unorganized maid hiring system in small cities
- 2 Dependence on word-of-mouth
- 3 Lack of trust and verification
- 4 Time-consuming process

2. Market Opportunity

Tier-2 and Tier-3 cities like Darbhanga have growing working populations but lack digital service platforms. This creates a strong opportunity to digitize local services.

3. Solution

A platform connecting verified maids and households with search, filters, and request-based communication.

4. Product Features

- 1 OTP-based authentication
- 2 Maid profiles with work details
- 3 Location-based search
- 4 Request-based contact unlock
- 5 Ratings system (future)

5. Business Model

- 1 Paid contact unlock (₹10–₹50)
- 2 Subscription plans
- 3 Premium listing for maids
- 4 Future commission on hiring

6. Competitive Advantage

- 1 Focused on small cities
- 2 Localized approach
- 3 WhatsApp-based onboarding
- 4 Low-cost model

7. Go-To-Market Strategy

- 1 Onboard 20–50 maids manually
- 2 Use WhatsApp groups
- 3 Local promotion
- 4 Word-of-mouth growth

8. Future Vision

- 1 Expand to multiple cities
- 2 Add transport services
- 3 Launch mobile app
- 4 Enable AI-based matching

9. Conclusion

This platform has strong potential to organize and digitize the domestic workforce sector in small cities while creating a scalable business model.
